Portfolio: <https://naimuropu-cell.github.io/>

Professional Summary

Detail-oriented Software QA Engineer with hands-on experience in Manual Testing, API Testing (Postman), and Performance Testing (JMeter). Skilled in designing test cases, executing functional, regression, UI, and cross-browser testing, and delivering clear bug reports throughout the SDLC/STLC in Agile environments. With hands-on frontend development knowledge in JavaScript, React.js and Vue.js, I collaborate effectively with development teams to ensure high-quality software. Currently expanding my automation testing skills with Selenium WebDriver and Playwright.

Professional Experience

Junior Software QA Engineer & Frontend Developer Intern

- Iching Lab | October 2025 – February 2026
 - Performed Manual, Functional, UI, Regression and API Testing for web applications.
